School Report

To the Citizens of the Town of North Haven:

The law requires the School Superintendent to make an annual written report of the condition of the schools, the proficiency made by the pupils, and other general information pertaining to the schools.

Many marked and important changes have taken place in our schools during the past few years, many of them due to the decrease in our school population. The consolidation of the schools became a neccessity. Still our schools are small.

Although the scholars have been on the decrease, it has been our aim to increase the quality of the work and the efficiency of the schools. The history of the past school year is as marked as any that has preceded it.

Last May thirteen pupils were graduated from our High School, and as many more admitted. This is a record of which we should be proud. Considering the school population, this is a large percentage to leave the school in one year. The High school is constantly drawing the best students from the common schools. What a strong incentive for the pupils to do their best in order to get into the High School.

The State Superintendent urges that the pupils complete the common school studies, such as arithmetic, grammar and geography, in the common schools, taking them up in the High school only as review work. In order to do this, the standard for entrance into the High school must be raised somewhat in order to put our school into the standard grade, but we would again draw the attention of parents and pupils to the disadvantages to students entering the High school too young or before receiving a proper fit, if the work in the

school is too difficult for the pupil he is hampered at every turn, he falls below rank, becomes discouraged and soon drops out of school and we have failed to draw out the best there is in him.

By taking a class into the High school every other year, one teacher can handle the classes, otherwise two teachers will be required. If this plan can be arranged without too much loss to a few pupils it will be much cheaper for the town and no disadvantage to the town.

The list of teachers in the town schools for the year is: Florence Osgood, Julia Miller, Annie Roberts, Lena Hazelton, Effie Pottle, Muriel Judkins and Florence Beverage. They are all teachers of ability and have had special training for their work.

The schools have been frequently visited and careful attention given to methods of instruction and discipline. On the whole we feel safe to say that these teachers have given the best of satisfaction, and that we have received a good equivalent for the remuneration paid them. The attendance has been good throughout the year excepting the winter term at the N. E. district. Unfortunately the whooping cough broke out just at the opening of the term.

A majority of the small pupils contracted the disease and the parents deemed it prudent to keep the children at home. The other pupils were entitled to their schooling and we deemed it advisable to run the school rather than to convey the pupils to another school.

A good globe has been put into each of the schools the past year. Not so many school books have been bought this year, but many of the old books will have to be replaced next term.

We urge the parents to visit the schools often to encourage the teacher and pupils and to take an interest in the improvement of the school rooms and the surroundings.

We were very fortunate in securing the services of Mr. Roy L. Sinclair as teacher of our High school. He is deeply interested in his work and the pupils are making good progress under his instruction.

We thank you again for your generous support of the schools, and your hearty co-operation with teachers and school officers for continued success.

Respectfully submitted

FREMONT BEVERAGE, Supt. of Schools

School Committee's Report

To the Citizens of North Haven:

The School Committee reelected Fremont Beverage as Superintendent of Schools. We appreciate and heartily approve of the efforts which he has made to maintain that standard in our schools, which meet with success.

The school grounds at the N. E. and Center districts have been cleared and graded.

By vote of the town the Thoroughfare and N. E. school houses were reinsured, for \$2,200 and \$2,000 on the High school building

We recommend the raising of \$75.00 for repairs.
